

Double Steaming Rice Vermicelli Production Line

二次蒸煮米粉生产线

Features | 特点

The Heshan Double-Steaming Rice Vermicelli Production Line integrates traditional craftsmanship with modern technology to achieve automated production from raw materials to finished products. The rice noodles, having undergone a double-steaming process, offer enhanced texture and can be produced in various forms, such as folded square vermicelli and round instant vermicelli.

河山二次蒸煮米粉生产线融合了传统工艺与现代技术，实现了从原材料到成品的自动化生产。该生产线生产的米粉经过两次蒸煮，口感更佳，且可以制成折叠方形米粉和圆形方便米粉等多种形式。
